|--|-----------|
| <b>Table of Contents</b> .....           | <b>3</b>  |
| <b>Table of Figures</b> .....            | <b>5</b>  |
| <b>Executive Summary</b> .....           | <b>1</b>  |
| <b>Introduction to 3D Printing</b> ..... | <b>2</b>  |
| <b>Applications</b> .....                | <b>3</b>  |
| Prototyping .....                        | 3         |
| The Maker Movement.....                  | 3         |
| Hollywood.....                           | 4         |
| Healthcare .....                         | 5         |
| Fashion and Art.....                     | 7         |
| Drone Accessories .....                  | 8         |
| Automotive .....                         | 8         |
| Aerospace .....                          | 10        |
| Printing in Space .....                  | 10        |
| Spacecraft.....                          | 10        |
| Aircraft.....                            | 11        |
| Defense.....                             | 13        |
| <b>3D Printer Types</b> .....            | <b>14</b> |
| Pen-Based .....                          | 14        |
| RepRap .....                             | 14        |
| Mini Printers .....                      | 15        |
| Desktops .....                           | 16        |
| Production Printers .....                | 17        |
| Differentiators.....                     | 18        |
| <b>Materials</b> .....                   | <b>19</b> |
| Plastics.....                            | 20        |
| Multi-material .....                     | 21        |
| Conductive Materials.....                | 21        |
| Graphene .....                           | 22        |
| <b>Process Types</b> .....               | <b>23</b> |
| <b>3D Printing in Electronics</b> .....  | <b>25</b> |
| Printed Electronics .....                | 28        |
| Project Ara - Racetrack .....            | 29        |
| <b>3D Printing Ecosystem</b> .....       | <b>32</b> |
| Stratasys.....                           | 33        |
| 3D Systems .....                         | 34        |
| Voxeljet .....                           | 35        |
| HP .....                                 | 36        |
| Mcor Technologies .....                  | 36        |

**3D Printer Forecast .....37**

## **Table of Figures and Tables**

|   |    |
|---|----|
| Figure 1: 3D Chair Being Printed .....                                    | 2  |
| Figure 2: Microsoft’s Arc Touch Mouse and Surface Tablet Concepts .....   | 3  |
| Figure 3: T Gauge Hopper Car .....  | 4  |
| Figure 4: 3D-Printed C3PO Costume for Star Wars .....                     | 5  |
| Figure 5: 3D Printed Splint on Model of a Baby’s Trachea .....            | 5  |
| Figure 6: Fairing on a Prosthetic Leg.....                                | 7  |
| Figure 7: Klein Bottle Opener in Polished Bronze Steel .....              | 7  |
| Figure 8: DJI Phantom Foldable Landing Gear.....                          | 8  |
| Figure 9: Goodyear Eagle 360 Concept Tire .....                           | 9  |
| Figure 10: Made in Space 3D Printer Undergoing Tests .....                | 10 |
| Figure 11: SpaceX Dragon Crew Capsule with SuperDraco Engines.....        | 11 |
| Figure 12: A 3D-Printed Housing for the T25 Sensor.....                   | 12 |
| Figure 13: GE Part Comparison .....                                       | 13 |
| Figure 14: 3Doodler 2.0.....  | 14 |
| Figure 15: RepRap Printer .....   | 15 |
| Figure 16: TierTime’s UP mini 2 Desktop 3D Printer.....                   | 16 |
| Figure 17: Zortrax M200 Desktop Printer .....                             | 17 |
| Figure 18: Objet1000 Plus Production Printer.....                         | 17 |
| Figure 19: 3D Printing Materials List.....                                | 19 |
| Figure 20: Cosyflex 3D-printed Textile .....                              | 20 |
| Figure 21: ABS Filament .....   | 21 |
| Figure 22: Main 3D Printing Technologies.....                             | 24 |
| Figure 23: Examples of 3D Printed Optics.....                             | 25 |
| Figure 24: 3D Printed Micro Battery.....                                  | 27 |
| Figure 25: Construction of a 3D Printed Battery .....                     | 27 |
| Figure 26: Examples of 3D Printed Electrical Components .....             | 28 |
| Figure 27: 3D Printed Antenna.....  | 29 |
| Figure 28: 3D MID Demonstrator Circuit -- Ag on PA6 with added SMDs ..... | 29 |
| Figure 29: Project Ara Devices .....                                      | 30 |
| Figure 30: 3D Systems’ Racetrack Design .....                             | 31 |
| Figure 31: 3D Printing Ecosystem.....                                     | 32 |
| Figure 32: Revenues for Top Two 3D Printer Manufacturers, 2011-2015.....  | 33 |
| Figure 33: Revenues by Printers, Services, and Materials .....            | 37 |
| Table 1: 3D Market Revenues, Including Services and Materials.....        | 37 |
| Table 2: 3D Printer Revenues, Units, ASP – 2011-2021.....                 | 38 |
| Figure 34: 3D Printer Units and Aggregate ASP.....                        | 38 |
