Table of Contents

Table of Contents i
List of Tables ii
List of Figures ii
Executive Overview 1
Several Interrelated Issues Impact Complex SoC Designs 2
Design Productivity Gap 3
The Disaggregation of the Semiconductor Market 6
Rise in the Use of Semiconductor Intellectual Property 9
    Die Area Partitioning 10
Caveats for Analyzing Complex SoC Design Costs 17
Current Complex SoC Market Trends and Drivers: 2013 19
    Definitions for Categories that Comprise Complex SoC Silicon Design 19
    Derivative SoC Designs 28
    The Rising Cost of IP Integration 36
    Silicon Re-Spins and Design Cycle Time 38
    Effect of Current Economic Conditions 42
Embedded Software Design Costs 45
    ITRS Roadmap Projects Rising Software Effort over Time 47
    Definitions for Categories that Comprise Complex SoC Software Design 51
    Software Design Costs for SoCs 52
Summary 58

List of Tables

Table 1: History and Forecast for First Time Complex SoC Silicon and Software Design Costs 21
Table 2: Possible Cost Reductions for 28nm Designs Over Time 24
Table 3: History and Forecast of Advanced Performance Multicore SoC Silicon Design Costs 25
Table 4: History and Forecast for Value Multicore SoC Silicon Design Costs 26
Table 5: History and Forecast for Basic SoC Silicon Design Costs 27
Table 6: Comparison of First Time and Derivative SoC Design Costs 32
Table 7: Comparison of First Time and Derivative SoC Design Costs Delayed Two Years After Initial Availability 33
Table 8: Silicon and Software IP Integration Costs by Process Geometry 36
Table 9: Comparison of Silicon and Software IP Integration Costs by Process Geometry 38
Table 10: SoC Unit Volumes to Reach Breakeven 44
Table 11: Silicon vs. Software Design Efforts and Costs 46
Table 12: History and Forecast of Advanced Performance Multicore SoC Software Design Costs 53
Table 13: History and Forecast for Value Multicore SoC Software Design Costs 54
Table 14: History and Forecast for Basic SoC Software Design Costs 55
Table 15: Comparison of Silicon and Software Design Costs by Node and Category 56
