Table of Contents

Table of Contents	i
List of Tables	iii
List of Figures	v
I. Executive Overview	7
Silicon and Software Design Costs.....	7
Emerging AI Functionality and Its Impact on the SoC Design Landscape.....	8
SoC Average Design Costs.....	8
II. Several Interrelated Issues Impact Complex SoC Designs	10
Detailed Definitions for SoC by Type	10
Design Productivity Gap.....	11
The Disaggregation and Reaggregation of the Semiconductor Market	13
The Rise of Metamaterials.....	16
The Rise of AI, Deep Learning and Machine Learning	16
Rise in the Use of Semiconductor Intellectual Property.....	17
Die Area Partitioning.....	19
Die Area Partitioning for Emerging Architectures with AI.....	24
III. Caveats for Analyzing Complex SoC Design Costs	30
IV. Complex SoC Market Trends and Drivers	32
Definitions for Categories that Comprise Complex SoC Silicon Design	32
Derivative SoC Designs.....	40
Design Costs During First Year of Availability	43
The Rising Cost of IP Integration.....	47
Silicon Respins and Design Cycle Time	48
V. Embedded Software Design Costs	56
Roadmap Projects Rising Software Effort over Time.....	58
Definitions for Categories that Comprise Complex SoC Software Design.....	63
Software Design Costs for SoCs	64
VI. Impact of EDA Tools with AI Functionality	74

Potential Savings for Design Costs Through Use of EDA Tools with AI Functionality	79
VII. Impacts of Rising Design Costs on SoC Design Starts	83
Model for the Impact of Rising Design Costs on SoC Design Starts.....	84
Design Complexity Levels.....	84
Total SoC Design Starts by Process Geometry and Design Cost Range	92
Average Design Costs for SoCs by Geometry.....	114
VIII. SoC 1st Effort Design Landscape by Cost.....	119
Number of Most Expensive SoC Designs	119
IX. Summary	125

List of Tables

Table 1: History and Forecast for First-Time Complex SoC Silicon Design Costs.....	34
Table 2: Possible Cost Reductions for 28nm Designs Over Time	36
Table 3: History and Forecast of Advanced Performance Multicore SoC Silicon Design Costs.....	37
Table 4: History and Forecast for Value Multicore SoC Silicon Design Costs	38
Table 5: History and Forecast for Basic SoC Silicon Design Costs.....	39
Table 6: Silicon and Software IP Integration Costs by Process Geometry.....	47
Table 7: Comparison of Silicon and Software IP Integration Costs by Process Geometry	48
Table 8: SoC Unit Volumes to Reach Breakeven	53
Table 9: SoC Unit Volumes to Reach Breakeven After Initial Introduction	55
Table 10: Silicon vs. Software Design Efforts and Costs	56
Table 11: History and Forecast of Advanced Performance Multicore SoC Software Design Costs.....	64
Table 12: History and Forecast for Value Multicore SoC Software Design Costs	65
Table 13: History and Forecast for Basic SoC Software Design Costs.....	66
Table 14: Comparison of Silicon and Software Design Costs by Node and Category in Advanced Architectures	67
Table 15: Comparison of Silicon and Software Design Costs by Node and Category in Value Architectures	70
Table 16: Comparison of Silicon and Software Design Costs by Node and Category in Basic Architectures	72
Table 17: Areas Where EDA Tools with AI Functionality will Impact Silicon and Software Costs.....	79
Table 18: Silicon and Software Costs Using EDA Tools with AI Functionality One Year after Node Introduction.....	81
Table 19: Possible Silicon and Software Cost Reductions Using EDA Tools with AI Functionality One Year after Node Introduction	82
Table 20: Total Advanced Performance Multicore SoC 1st Time Efforts and Average Design Cost Range.....	85
Table 21: Total Value Multicore SoC 1st Time Efforts and Average Design Cost Range	87
Table 22: Total Basic SoC 1st Time Efforts and Average Design Cost Range.....	89
Table 23: Total SoC 1st Time Efforts and Total Average Design Costs	91
Table 24: Total 180nm SoC 1st Time Efforts and Total Average Design Costs	93
Table 25: Total 130nm SoC 1st Time Efforts and Total Average Design Costs	94
Table 26: Total 90nm SoC 1st Time Efforts and Total Average Design Costs	96
Table 27: Total 65nm SoC 1st Time Efforts and Total Average Design Costs	97
Table 28: Total 40nm SoC 1st Time Efforts and Total Average Design Costs	99
Table 29: Total 28nm SoC 1st Time Efforts and Total Average Design Costs	100
Table 30: Total 20nm SoC 1st Time Efforts and Total Average Design Costs	102
Table 31: Total 14nm SoC 1st Time Efforts and Total Average Design Costs	103
Table 32: Total 10nm SoC 1st Time Efforts and Total Average Design Costs	105
Table 33: Total 7nm SoC 1st Time Efforts and Total Average Design Costs	106
Table 34: Total 5nm SoC 1st Time Efforts and Total Average Design Costs	108
Table 35: Total 3nm SoC 1st Time Efforts and Total Average Design Costs	110
Table 36: Total 2nm SoC 1st Time Efforts and Total Average Design Costs	111
Table 37: Total 1.4nm SoC 1st Time Efforts and Total Average Design Costs	113
Table 38: Advanced Performance Multicore SoC Average Design Costs by Geometry	115

Table 39: Value Multicore SoC Average Design Costs by Geometry	116
Table 40: Basic SoC Average Design Costs by Geometry.....	117
Table 41: Total SoC Average Design Costs by Geometry.....	118
Table 42: Number of Most Expensive SoC Designs by Year 2018–2027	120

List of Figures

Figure 1: Definition for SoC Types with AI Functionality Added.....	11
Figure 2: Altering the Design Productivity Gap	12
Figure 3: Outsourcing Drives New Markets.....	15
Figure 4: Rise in the Use and Reuse of SIP Blocks	18
Figure 5: Rise in the Average Number of Different Types of SIP Blocks.....	18
Figure 6: Rise in the Average Number of Different Types of SIP Blocks by Geometry.....	19
Figure 7: Advanced Performance Multicore SoC Die Area Partitioning 2010-2027.....	21
Figure 8: Value Multicore SoC Die Area Partitioning 2010-2027	21
Figure 9: Basic SoC Die Area Partitioning 2010-2027	22
Figure 10: Total Average Die Area Partitioning 2010-2027	23
Figure 11: Advanced Performance Multicore SoC AI Die Area Partitioning 2016-2027.....	25
Figure 12: Value Multicore SoC AI Die Area Partitioning 2016-2027	26
Figure 13: Basic SoC AI Die Area Partitioning 2016-2027.....	27
Figure 14: Total Average SoC AI Die Area Partitioning 2016-2027.....	28
Figure 15: Total Design Costs for First-time Complex SoC Silicon and Software Efforts.....	33
Figure 16: Possible Cost Reductions for 28nm SoC Designs.....	37
Figure 17: History and Forecast for Advanced Performance Multicore SoC Silicon Design Costs by Year.....	38
Figure 18: History and Forecast for Value Multicore SoC Silicon Design Costs by Year.....	39
Figure 19: History and Forecast for Basic SoC Silicon Design Costs by Year.....	40
Figure 20: Total First-Time and Derivative SoC Designs	41
Figure 21: Total First-Time SoC Designs.....	41
Figure 22: Total First-Time SoC Designs Without Respins.....	42
Figure 23: Growth in the Number and Complexity of Rule Checks by Process Geometry.....	43
Figure 24: Comparison of 1 st Effort SoC Design Costs in Initial Year of Availability	44
Figure 25: Design Costs for Advanced Performance Multicore SoCs Moderate over Time	45
Figure 26: Design Costs for Value Multicore SoCs Moderate Over Time	46
Figure 27: Design Costs for Basic SoCs Moderate Over Time.....	46
Figure 28: Rising Costs for IP Integration by Process Geometry for Advanced Performance Multicore SoC.....	47
Figure 29: Design Respin Climate is Worsening	49
Figure 30: Design Cycle Time Increasingly Out of Sync with Market Needs	51
Figure 31: Design Cost vs. Unit Volumes at Process Geometry Introduction	52
